BBW Pricing

Price per service across the three pillars

DOCUMENT	ISSUED	OWNER	CATALOG
Pricing reference	18 August 2026 · v2	Mansoor Qureshi	Ratified 2026-07-18
SITE CHECKED			
18 August 2026			

Internal — for the Big Brain Way team. Sourced from the ratified BBWOPS catalog and reconciled against the live bigbrainway.com site. Not for distribution outside the firm.

HOW TO USE THIS PAGE

Quote off this page — do not free-form a price on a call

This is the ratified catalog as of **2026-07-18**. Every figure is quoted with its product name and its unit, so no line can be lifted out and misread as a different product's price.

Never average a range, never estimate "around" a figure, and never negotiate on the call. If a prospect asks for something not priced here, it is scoped individually and the team will quote it.

WEBSITE CONFLICT — READ BEFORE QUOTING

The live **bigbrainway.com** site has **not** been updated to the catalog ratified on 2026-07-18. It still publishes retired tier names, a superseded plan structure, and prices below the current floor. Where this document and the website disagree, **this document is the ratified position** and the website is out of date. The reconciliation table below sets out where.

PILLAR 1

Brand & Visibility Engineering

PRODUCT	TYPE	PRICE
Gap Evidence Brief	Front door	\$0
AI Visibility Deep-Dive	Productized audit — inbound/warm only	\$497 one-time
Visibility Core (flagship)	Recurring	\$1,500/mo + \$1,500 setup
Visibility Core: Defended	Recurring — multi-location / competitive geo	\$2,500/mo + \$2,500 setup
Conversion Website Build	One-time	\$2,500
Content Fabric expansion	Module, scoped	\$500–\$1,500/mo

The Gap Evidence Brief is \$0 and is never marketed as a "free audit." The Conversion Website Build is \$2,500 — one price, everywhere.

PILLAR 2

Financial & Operational Intelligence

PRODUCT	TYPE	PRICE
Cash Audit (Financial Health Audit)	Paid entry door	\$5,000 one-time
Watch My Numbers (Fractional CFO + BI)	Recurring	\$2,500/mo + \$2,000 setup
Vendor & Subscription Strategy Review	Productized engagement	\$1,500 one-time
ERP / operations enablement	Scoped build + license (band L)	\$5,000–\$12,000 + \$500–\$750/mo
Receipts Engine Blocked	Licensed app	Do not quote
Items Engine Blocked	Licensed app	Do not quote

THE CASH AUDIT GUARANTEE

"We find \$25,000+ in recoverable value or you don't pay." Strongest proof and strongest close lever in the catalog, and historically defensible. Quote it verbatim.

PILLAR 3

Custom AI & BI Engineering

PRODUCT	TYPE	PRICE
Custom AI Engineering	Scoped build + license (band L)	\$5,000–\$12,000 + \$750/mo
Sona — AI Receptionist	Licensed app	\$350–\$500/mo
BI Command Center	One-time + license	\$4,000 + \$500/mo
Second Brain Concierge	Recurring advisory	Included at Core; standalone \$750–\$1,500/mo
Bespoke agents (RFP Intake class)	Pilot → land-and-expand	Scoped

THE ONE PEOPLE GET WRONG

A request for **an AI chatbot, assistant, agent or automation** is Custom AI Engineering: **\$5,000–\$12,000 one-time plus \$750/mo**. Not Visibility Core, and not the \$497 Deep-Dive. The honest phrasing is *"builds start at \$5,000 one-time plus \$750 a month, and the final figure depends on scope."*

FLOORS

The minimum depends on what they are buying — four different answers

State the floor that matches what the prospect actually asked for. There is **no sub-\$1,500/mo option and no reduced-scope downshift tier**.

WHAT THEY WANT	MINIMUM	PRODUCT
To start a conversation	\$0	Gap Evidence Brief
A one-time paid engagement	\$497 one-time	AI Visibility Deep-Dive
An ongoing relationship	\$1,500/mo + \$1,500 setup	Visibility Core
A custom AI build	\$5,000 + \$750/mo	Custom AI Engineering

An ongoing relationship costs \$3,000 in the first month once setup is included.

When the budget is below the floor

Three moves, in order. We do not discount to close.

1. **Re-scope, don't re-price.** Someone who cannot afford a \$5,000 custom build may be better served by Visibility Core at \$1,500/mo, or by Sona at \$350–\$500/mo. Match the product to the need rather than shaving the price of the wrong one.
2. **Offer the Gap Evidence Brief.** It costs nothing, it is a real deliverable, and it keeps a good-fit prospect in the relationship until the budget catches up.
3. **Say the number plainly.** "Our custom builds start at \$5,000" is a better outcome for both sides than a discovery call that ends in the same sentence 40 minutes later.

RECONCILIATION

The live website prices a different business — do not quote from it

bigbrainway.com was never updated after the 2026-07-18 consolidation. Its published prices sit an order of magnitude below the ratified floor. Every row below is a live contradiction a prospect can read today.

AREA	RATIFIED POSITION — QUOTE THIS	STATUS OF THE SITE
Monthly plans	Visibility Core \$1,500/mo + \$1,500 setup; no sub-\$1,500 tier	Publishes a plan set that predates the consolidation, priced well

		priced well below the current floor
Tier structure	No tier ladder; journeys only	Still presents a three-tier framework using retired names
Free entry	Gap Evidence Brief \$0 — never a "free audit"	Advertises four "Free Business Audits"
Founding seats	10 total across the book; one privilege per quote; setup waiver once	Advertises a different seat count and an open-ended discount commitment
Contract terms	Setup flat; pricing reviewed quarterly	States no long-term lock-in is required
Trial	Not in the catalog	Commits to a short free trial before billing begins

HOW TO HANDLE IT ON A LIVE CALL

A prospect who read the site may arrive believing they are buying a plan at a fraction of the catalog price. **Do not confirm a website figure, and do not improvise a bridge to it.** Say that plans were restructured, quote the catalog, and route the pricing question to Mansoor if they push.

The open-ended discount language on the founding offer is the sharpest exposure — **nobody should be committing the firm to lifetime pricing** against a catalog that reprices quarterly. Escalate rather than honour it.

WHY THE WEBSITE'S NUMBERS ARE NOT REPRODUCED HERE

This document deliberately carries **no website pricing**. Reprinting superseded figures in the page sellers quote from is how a dead price gets quoted back to life. If you need to see what a prospect saw, open the site directly — do not copy it into a proposal, a CRM note, or this document.

PUBLISHED GUARANTEE

The 30-Day Satisfaction Guarantee — deliverables, not results

Published at `/guarantee/` and therefore binding on us. It is a **refund on undelivered work**, and it is deliberately not a results guarantee. Know the exclusions before you offer it.

The promise: *"If you're not satisfied with the results or service you received in your first month, you can request a partial or full refund — based on the scope of what was delivered."* Cover runs **30 days from first payment**; approved refunds are issued within **10 business days**.

REFUND APPLIES WHEN...	REFUND DOES NOT APPLY WHEN...
Access and approvals were given on time but the work wasn't delivered	Required access, feedback or approvals weren't provided
Content produced didn't match the agreed deliverables	Full scope was delivered and signed off
Work was unusable due to a technical or team error	The client is on a discounted, promotional or trial-rate plan
—	The request comes after 30 days
—	The claim rests on time-dependent results — SEO rankings, lead growth — rather than deliverables

Note the third exclusion: a client on a promotional or discounted rate is outside the guarantee. Any founding-client privilege therefore interacts with it directly — check before you promise both in the same conversation.

OPERATING RULES

Six rules that govern every quote

- Quote off this page.** Don't free-form prices on calls, and don't quote off the website.
- Setup fees are flat as listed.** Don't waive setup to close. A Founding Client Privilege setup waiver applies *once* at engagement start — one privilege per

privilege setup waiver applies once at engagement start — one privilege per quote, never on every monthly invoice.

- 3. **No per-client recurring cap.** Mature clients ride to \$5–10K/mo. This is the goal, not an exception to escalate.
- 4. **Below-catalog-floor pricing requires Mansoor's approval** before the proposal goes out.
- 5. **Pricing changes are quarterly.** If you think something is mispriced, route feedback through the vault update request flow — don't quote a new number.
- 6. **The review date is the truth date.** If this page is more than one quarter stale, flag to Mansoor before quoting.

Pricing modes

MODE	WHAT IT IS
Catalog	Standard published pricing, as above.
Founding	Founding-client seats — 10 total across the whole book. One privilege per quote. <i>The public founding offer states a different seat count and a longer-running commitment than the catalog authorises — escalate, don't honour it.</i>
